### 3. Plan Benefits

#### Option 1: Life Secure Option:

Under this option, the policyholder chooses the Base SA at the time of purchase. In case the life assured dies during the policy term, the stipulated death benefit (based on Effective Sum Assured as applicable on the date of death – defined below) **less** any payout under Payor Accelerated Benefit will be paid out to the nominee (as per the payout plan chosen) and the policy will terminate.

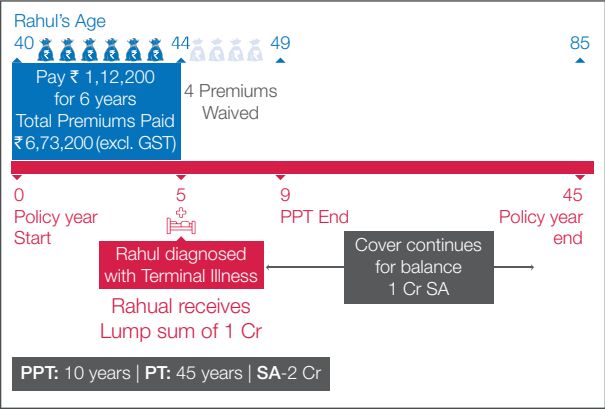

The Effective Sum Assured applicable for computation of Death Benefit would include any Cover Enhancement Option purchased by exercising either the Life Stage, Top-Up SA or the Education Secure option along with Base SA. Please refer to Section 8 for more details.

Life Secure Option has an inbuilt “Payor Accelerator Benefit” wherein the benefit amount equal to 50% of the Base SA is paid out as lump sum on acceptance of Terminal Illness (TI) claim by us. Upon payment of the TI claim, all the future premiums (base benefit and cover enhancement options, if opted) shall be waived off and the policy will continue to remain inforce for the remaining applicable benefit(s).

In case the life assured survives till maturity, no additional benefit is payable, and the policy terminates.

#### Payor Accelerator Benefit illustration:

Mr. Rahul, a 40 year old healthy, non-smoker male purchases Tata AIA Maha Raksha Supreme Select for a policy term of 45 years and Sum Assured of ₹ 2 Cr. Rahul chooses to pay premiums for 10 years. Before paying the 7th premium instalment, he gets diagnosed with a terminal illness.

#### Option 2: Life Secure Plus Option:

In case of first death of either lives assured or simultaneous death of both the life assureds’ during the policy term, the stipulated death benefit (based on Effective Sum Assured as applicable on the date of death – defined below) **less** any payout under Payor Accelerated Benefit will be paid out to the nominee (as per the payout plan chosen).

In case of simultaneous death of both the first life and second life due to an accident, an additional amount equal to the Base SA will be paid out to the nominee as lump sum.

The Effective Sum Assured applicable for the above computation of Death Benefit would include any Cover Enhancement Option purchased by exercising either the Life Stage or the Top-Up SA option along with Base SA.

In case of death of first life prior to the death of second life or simultaneous deaths of both the lives assured; in addition to Life Stage or Top-up SA, the Effective Sum Assured would also include the additional sum assured purchased by exercising the Education Secure option.

In case of death of second life prior to first life, the Effective Sum Assured under this option will get paid out. The cover will continue with respect to the Education Secure benefit, if applicable, and respective due premiums shall continue to remain payable.

The policy will terminate upon payment of the entire sum of death benefit.

Joint Life Secure Option also has an inbuilt benefit called “Payor Accelerator Benefit” wherein the benefit amount equal to 50% of the Base SA is paid out as lump sum on acceptance of first Terminal Illness (TI) claim of either first life or second life by us. The “Payor Accelerator Benefit” shall be applicable only after completion of the Step-Up Period.

In case the life assured survives till maturity, no additional benefit is payable, and the policy terminates.

Option 6: Step-Up Secure Plus Option:

Any payout made under Payor Accelerated Benefit and/or payout under Milestone Ages(s) shall be reduced from the Accumulated Value of Premiums for the computation of the death benefit.

In case the life assured survives till pre-defined Milestone Age, an amount equal to a percentage of the Total Premiums Paid (excluding loading for modal premiums and discount) towards the benefit option shall be payable at the end of attaining each Milestone Age, provided the policy is not terminated earlier.

This plan has an inbuilt benefit called “Payor Accelerator Benefit” wherein the benefit amount equal to 50% of the applicable death benefit is paid out as lump sum on acceptance of Terminal Illness (TI) claim by us. Upon payment of the TI claim, all the future premiums (base benefit option and cover enhancement options, if opted) shall be waived off and

the policy will continue to remain in force for the remaining applicable benefit(s).

The Company reserves the right for independent assessment of the Terminal Illness.

Payor Accelerator Benefit is not available in the PoS variant.

**Life Secure / Step-Up Secure / Joint Life Secure / Legacy Secure Plus options:** Not applicable

**Life Secure Plus / Step-Up Secure Plus options:** An amount equal to the 100% of the Total Premiums Paid (excluding loading for modal premiums and discount) towards base benefit option and “Life Stage” or “Top-up SA”, if opted and applicable, shall be payable at the end of the Policy Term, provided the life assured survives till maturity and the policy is not terminated earlier.

Survival Benefit is payable **only** under Legacy Secure Plus Option on attaining milestone age(s).

Percentage of Total premiums paid (excluding loading for modal premiums and discount) to be payable on each Milestone Age is as follows -

Milestone Age	Percentage of Total Premiums Paid
15th Policy anniversary or attaining Age 80, whichever is earlier	25
25th Policy anniversary or attaining Age 85, whichever is earlier	75

7. Flexible Payout Option

The policyholder will have the option to opt for lump sum, staggered benefit or a combination of a lump sum amount and staggered benefit, as at the time of purchase (referred as the “Payout Plan” henceforth).

If the payout plan chosen includes a staggered benefit, at the time of purchase of the policy, the policyholder would stipulate the benefit amount stream payable to the nominee after death of the life assured. For premium calculation, sum assured for the staggered benefit portion shall be computed as the discounted value of the staggered benefit stream using a discount rate of 4% p.a. The staggered benefit payment frequency can be Annual / Half Yearly / Quarterly / Monthly. The staggered benefit will be paid as per the frequency chosen for the “Benefit Period” (up to 60 months) selected, starting from the next monthly anniversary following the date of occurrence of insured event. Any accrued staggered benefit, due before intimation of death, will be paid along with first payout under this option.

At any time during the staggered period, the nominee also has an option to receive the commuted value of the future staggered benefit stream as a lumpsum, discounted at the higher of (4% p.a., State Bank of India domestic 10-year term deposit rate prevailing at the time of commutation + 2%).

8. Additional Benefits and Features

1. Cover Enhancement Options:

- a. **Life Stage:** Under Life Stage option, the policyholder can increase the coverage amount on happening of any one of the following events, subject to the BAUP and the option to increase the SA is exercised within 180 days of the incidence of the following event(s):

Event	Additional Sum Assured as % of Base SA
Marriage (One Marriage Only)	50%
Birth/Adoption of 1st Child	25%
Birth/Adoption of 2nd Child	25%
Home Loan disbursal* amount sanctioned	100%, subject to home loan

\*Subject to underwriting

Once chosen, the option cannot be changed over the policy term, but the policyholder will always have a right to stop exercising the option in the future.

The Additional SA can only be taken in the form of (up to) 4 tranches as mentioned in the above table provided there has been no claim under Payor Accelerator Benefit. Additional premium will be charged for each tranche. The premium amount for the Base SA remains unaltered. Any increase in the SA shall be effective from the policy anniversary succeeding the option exercise date.

The policyholder will have an option to surrender the additional sum assured tranches after payment of premiums for first five completed policy years. The tranches shall be terminated after payment of any applicable value on surrender. The tranches will be surrendered in reverse order to which they were availed, i.e. the latest tranche will be surrendered first, followed by the penultimate tranche, and so on. This shall be allowed till all incremental tranches are removed. Once reduced, the premium or sum assured cannot be subsequently increased.

The policy shall continue with the Effective Sum Assured as applicable at the time of termination for rest of the policy term.

This option will not be available with Legacy Secure Plus option or if the product is bought under PoS. Further, under Step-Up Secure and Step-Up Secure Plus options, this benefit is only available post the completion of Step-Up Period.

- b. **Top-Up SA:** Under Top-Up SA option, the policyholder can opt to increase the life cover by a fixed percentage at each policy anniversary by paying an additional premium for every increase, subject to satisfactory underwriting as per the Board approved underwriting policy of the Company (BAUP). The policyholder can opt to exercise the Top-SA option at the time of purchase of the policy, provided the premium payment term is at least 5 years.

The Sum Assured increase shall be by a fixed percentage ranging from 5% to 20% of the Base SA chosen at inception every year till the earlier of:

- The maximum sum assured eligibility as per the Board-approved Underwriting Policy (BAUP) is breached
- The outstanding premium payment term becomes less than minimum specified under the product
- The outstanding policy term becomes less than the minimum allowed under the product
- The attained age becomes higher than maximum entry age allowed under the product
- Claim under Payor Accelerator Benefit.

This is subject to the Board approved underwriting policy (BAUP) of the Company.

Once chosen, the option cannot be changed over the policy term, but the policyholder will always have a right to stop exercising the option in the future.

For each tranche, the additional premium will be determined using additional SA and the premium rate which will be derived basis the following:

- Attained age as of the policy anniversary at the point of increase, subject to the maximum entry age stipulated in the product.
- Outstanding policy term (in complete months) as of the policy anniversary succeeding the option exercise date, subject to the minimum policy term stipulated in the product.
- Outstanding premium paying term (in complete months) as of the policy anniversary succeeding the option exercise date, subject to a minimum premium paying term specified in the product.
- Aggregate sum assured (up to and including the increment in sum assured requested) opted for under the contract.
- Underwriting classification as applicable on the option exercise date.

The policyholder can opt to terminate the future increments at any time during the policy term and such termination will be effective from the next policy anniversary. Once the future increments are terminated, it is not possible to initiate the increments again over the remaining premium paying term of the policy.

In case the policyholder does opt to terminate the future increments, there will be an option to surrender the additional sum assured tranches (i.e. in multiples of 5% of Base SA) after payment of premiums for first five completed policy years. The tranches shall be terminated after payment of any applicable value on surrender. The tranches will be surrendered in reverse order to which they were availed, i.e. the latest tranche will be surrendered first, followed by the penultimate tranche, and so on. This shall be allowed till all incremental tranches are removed. Once reduced, the premium or sum assured cannot be subsequently increased.

The policy shall continue with the Effective Sum Assured as applicable at the time of termination for rest of the policy term.

This Top-SA feature is not available in Legacy Plus Option or if the product is bought under PoS. Further, under Step-Up Secure and Step-Up Secure Plus options, the Top-Up SA will commence after completion of the Step-Up period.

- c. **Education Secure:** Under Education Secure, the policyholder has the option to take an additional life cover to provide for cost of higher education of up to 3 nominated children of the life assured on payment of additional premiums. This option can be chosen only if nominated child has 4 to 19 years of education left for completion of graduation degree under Variant 1 and 4 to 22 years left for post-graduation under Variant 2. Once chosen, the option cannot be changed over the policy term.

This benefit is available under all options except for Step-Up Secure, Step-Up Secure Plus and Legacy Secure Plus, subject to the following conditions:

- Age at entry is up to 50 years and
- Policy term is at least 4 years

Under Joint Life Secure and Joint Life Secure Plus options, this benefit will be available only with respect to the first life.

The sum assured at inception under Education Secure option shall be equal to expected total cost of education of the nominated child. Every policy anniversary, the sum assured will reduce by the cost of education of previous years provided the cover has not been terminated. The Sum Assured schedule is provided in Policy document.
